**We finally opened our first Sushi restaurant in Prague on the 29th April. The trial and first two weeks went really smooth. Without any promotion we sold about 100 rolls a day, with excellent feedback from ALL customers. This makes us very happy and gives us energy to continue on our journey! Now, after the "warming round", we plan to invest in the promotion of our product so that we increase sale and production.**

**I wanted to take a moment to thank you for the great and prompt service provided by you and your company( Melvin Wee & Sushi Machines Pty Ltd). The machines work perfectly, we found the whole training you provided to us as well as other material and information you left with as very useful.**

**Below I enclose the link to our web page, you can find our menu as well as few pictures of our restaurant placed in Prague Stodulky so that you know where to go when you visit us next time:-)**

**We used the concept of Australia for logo& design as it perfectly goes with the new modern style of sushi rolls and differentiate us from old-fashioned Chinese or Japanese restaurants. I believe you like it:-)**

**Many thanks again  
And best regards**

**Ivan**
